 Fax (623) 582-0059

General Information

We prefer to receive guns fully assembled. If you send us a disassembled gun or gun parts, you must include an itemized inventory list. Robar will not be responsible for lost parts if no inventory list is included. We do not plate sears, springs bores/chambers, titanium, scandium, pot metals, chrome plated aluminum, double barrel shotguns and Remington, Winchester and Weatherby pot metal rifle and shotgun trigger guards. We do not refinish certain models of firearms - please check prior to shipping. Plating does not include the removal of existing pitting, dings or scratches. Limited metal preparation is available at additional cost on a per-hour basis. We can provide a quote once we have received your firearm. Prices do not include sales tax (if applicable), return shipping, handling or insurance charges. This price list does not list all of our services, please contact us if you need information on a service not listed here or if you have any questions regarding our pricing and services.

Shipping

We recommend shipping via UPS or FedEx - handguns will require Next Day Air service, long arms require Second Day Air service. Pack your firearm securely and insure for its replacement value. Include your name, return shipping address (no PO Boxes please), daytime contact telephone number and email address. We will send a copy of your order confirmation and an estimated delivery date with pricing (excluding return shipping and insurance).

Payment & Pricing Policies

We accept certified funds, Mastercard or Visa. We will contact you when your order is complete to arrange for payment. We add a \$6.00 handling fee to each order shipped. A 50% deposit is required for all custom firearm orders, with the balance due upon completion. Please note that Robar reserves the right to charge a minimum shop charge of one hour (\$85.00) for any work done.

Metal Finishing - NP3 Plus & Combo NP3 Plus/ Roguard or Poly-T2

*Limited Lifetime Warranty (see page 6 for details)

* Limited Lifetime Warranty on NP3, NP3 Plus and Roguard Metal Finishes

NP3, NP3 Plus and Roguard metal finishes carry a limited lifetime warranty against finish failure. Finish failures that are covered include corrosion through the finish and peeling or flaking of the finish. Additionally, normal wear resulting in finish failure may be covered, if, at the sole discretion of The Robar Companies, the finish has failed prematurely due to such normal wear. Conditions that will not be covered are failure of the finish resulting from misuse, abuse, accident, improper cleaning or modifications performed after the metal finish has been applied.
